Summary

I build rich web applications with React.js components, automated tests, and Node.js web APIs.

Experience

ING Nederland / Dev Engineer
DEC 2017 - PRESENT, AMSTERDAM

Developed ING banking website with Polymer.js web components. Also wrote unit tests and end to end tests with istanbul coverage.

L1NDA / Lead Front-end Developer
NOV 2016 - OCT 2017, AMSTERDAM

Converted a legacy web app to React.js, ES6, unit tests, webpack and babel.js. Coached the front-end team.

Valtech / Senior Front-end Developer
OCT 2013 - SEP 2016, AMSTERDAM

Developed several responsive websites for Heineken. Used React.js, Sass, ES6, and webpack.

Education

University of Bedfordshire / Media Production with Multimedia
1998 - 2001, UNITED KINGDOM

Specialised in website development. Produced interactive CD-ROMs, short films, and Javascript games. I was awarded a 2:1.

Université de Provence / Philosophy (DEUG)
1996 - 1998, FRANCE

Debated abstract ideas concerning politics and sciences. Solved long boolean logic formulas.

Hobbies

I enjoy participating in hackathons (last one was Global Game Jam in Jan 2019), developing casual games, and cycling around Amsterdam.
